

Important Notification

Important Notice Regarding America's Pride

In November 2004 INOV8 signed an agreement with America's Pride to market our products via their website. INOV8 chose not to renew the relationship in July 2006 because they did not support the product after the sale and were simply taking the mark-up and abandoning customers to fend for themselves. Since terminating this relationship, INOV8 has asked America's Pride repeatedly to remove from their website any reference to our company, our technical literature and photos of our products. After all of this time they continue to use our information to their benefit, by doing "bait-and-switch" with those seeking information on INOV8 products. This is against the law! Please be advised that America's Pride is not an authorized representative of INOV8 products. Also be aware that much of the technical information, features and safety benefits listed on their website are describing INOV8 products – not the product they will try to sell you. Call 877-684-6688 for additional information.
