Statement by Sen. Dan Kapanke Regarding Coulee Region Bio-Fuels, LLC Open House and Product Demonstration

“Coulee Region Bio-Fuels, LLC, along with INOV8, marks a milestone in biofuels production and recycling for the Coulee Region by participating in the first ever joint open house and product demonstration for the public.”

“The ability to reduce our dependence on fossil fuels through the use of renewable energy resources begins with these wonderful Wisconsin companies. It is essential that policy-makers, business leaders, and the agri-business community works together to study and develop biofuels. I applaud these companies in their efforts and encourage everyone to visit the open house to view their exciting, innovative technologies.”
